Complete Passat Sport Estate set

An aerodynamic package that will set your pulse racing. Classy, dynamic, distinctive

The Passat Estate makes a powerful impression with a lowered front and rear skirt for an uncompromising, strong design. The air intakes have been enlarged and given a sporty honeycomb design. Asymmetrically positioned partitions create an even stronger visual impression.

The side sill set, combined with the door strips, ensures a dynamic side profile, giving the appearance of a lowered suspension.

At the rear, the bumper and tail silencer in the oval twin tailpipe design are perfectly matched. A frame on the tail silencer cut-out allows the polished stainless steel twin tailpipe to be integrated harmoniously into the rear skirt. The roof spoiler rounds off the distinctive appearance of the Passat Estate.

All aerodynamic parts are made from durable, high-quality plastic and prepared for painting in the vehicle colour.

Part no.:	3C9 071 600 GRU
	for vehicles without towing hitch
Part no.:	3C9 071 600 A GRU
	for vehicles with towing hitch

Design tip: Striking 2-tone paintwork on the front and rear skirt. Our Passat Sport colour configurator at www.volkswagen-zubehoer.de/passat_farbkonfigurator.html will show you how to create additional accents.
