

Whatever path you want to take.

New Tiguan

Clever design Tiguan with new front end and new assistance systems is setting new standards.

The new Tiguan is here and surpasses expectations with a sleek new design, improved clever assistance systems and the on-road/ off road ability you would expect from a small but sophisticated SUV affectionately dubbed the 'baby Touareg'.

With the Volkswagen DNA now incorporated into the front end of the Tiguan, the family face now extends across the full New Zealand Volkswagen range. The 'sport and style' front fascia now includes automatic halogen headlights, front fogs with cornering lights, rain sensor, privacy glass and a chrome work package. Optional extras include bi-xenon headlights with dynamic cornering lights, panorama sliding glass roof and a mirror package to fold away wing mirrors.

New high-tech driver assistance systems ensure driving is a pleasure and safety is paramount. Parking is a breeze with the Tiguan taking care of parallel parking at the touch of a button with drivers' merely controlling braking and acceleration. Front and rear 'ParkPilot' alert the driver to distance from obstacles both front and rear taking the stress out of inner city parking. 'Rest assist' fatigue detection identifies waning driver concentration and alerts the driver and 'Lane assist' lane departure warning system is also available.

It's a pleasure to take the Tiguan off road. The 'Sport & style' package includes 4Motion all-wheel drive, traction control and an approach angle of 18° as standard with an off-road package available adding under body protection, an increased approach angle of up to 28° and off-road electronic programme. The Tiguan has a towing ability of up to 2,000kg trailer load and 1,510 litres cargo space making it a versatile companion for life on the move.

Safety, as ever, is premium in the Tiguan with ESP, ABS and traction control for those more demanding drives, as well as a comprehensive network of airbags throughout and ISOFIX mounting points on outer two rear seats for easily fixing child's seats. Also new in the Tiguan is the XDS electronic differential lock which lets you grip the road when cornering fast giving a more agile, precise and calm driving performance with better traction out of bends. In other words, you can enjoy sporty driving in your Tiguan, knowing you have a reassuringly higher level of safety.

The Tiguan is more fuel efficient than ever before. The diesel, 6-speed tiptronic transmission engine delivers 103kW power and 320Nm torque from as little as 1,750 rpm. Reaching a top speed of 182 km/ h the 4Motion permanent all-wheel drive Tiguan has surprising fuel consumption of just 7.5 l/100lm combined making it as economical on your wallet as on the environment.

17" Boston alloy wheels give the Tiguan a sporty but stylish look that moves the SUV seamlessly from city to country. A tyre pressure monitoring system and space and weight saving spare wheel both come as standard for extra peace of mind.

Inside, the spacious yet compact SUV delivers on luxury and comfort with a leather multi-function steering wheel, 'Anthracite Metallic' dashboard and trim panels and 'Milan' upholstery with driver and passenger seat height adjustment and lumbar support. And thoughtful innovations are present in the height adjustable front centre armrest, tray tables in the back of the front seats and novel storage features plus raised 'cinema-style' rear seats to give passengers ultimate comfort and view.

The Tiguan multimedia package provides all you need to entertain and keep in touch. RCD 510 radio CD system with a large high resolution colour touch screen, 6-disc CD changer, MP3 and WMA file compatibility is standard. Provision for mobile phone with Bluetooth (hands free profile) including Multi-function display 'Plus' and phone book display means a catch up is only a button click away.

The Tiguan TDI Tiptronic is now available in New Zealand with a starting RRP of only \$53,250. Dean Sheed, General Manager for Volkswagen says "With an increase in standard specification and great price realignment we are confident this compact SUV is a head turner and great value for money. The Tiguan has always been a great performer in the NZ market and we expect no less from this improved and re-styled version."

All New Zealand media releases are available on our website (company/press releases) in pdf format. [Click here](#) to visit the site.
