The second section showcases our universal accessories products, clearly arranged in chapters. Tables at the end quickly show you which products are available for your vehicle. Complete wheels you can rely on

Understanding the essentials. Our manufacturing expertise.

Our complete wheels represent everything that Volkswagen Accessories stands for: outstanding quality, maximum safety standards and state-of-the-art design. No other vehicle component carries as much responsibility as the wheel. Both in terms of safe driving and the vehicle's overall appearance. Which is why we offer such an extensive range of complete wheels. Complete wheels from Volkswagen Accessories are designed to match the corresponding Volkswagen models perfectly. Drawing on many years of experience, our engineers choose the ideal wheel, tyre and vehicle combination to ensure that every design meets Volkswagen's high quality and safety standards. Our technical installation checks are an integral part of this, taking into account the engine variants and brake dimensions, as well as axle loads.

Volkswagen Genuine hub caps¹ (pictured right):
Volkswagen Genuine hub caps with embossed Volkswagen logo impress with their dynamic spinning function, which guarantees that the Volkswagen logo always remains in the correct position when driving or parked.

¹ Use of the hub caps depends on the wheel fitted. Please ask your Volkswagen dealership.

01 Only the best succeed

Volkswagen Genuine alloy wheels

- Strength tests check the wheel loads when the vehicle is overloaded, in collisions and cornering.
- The materials and surfaces are tested for resistance to traction, expansion, scratches and corrosion.
- Test drives on the track put the complete wheels through their paces under tough conditions.
- Endurance testing on the dual-axle wheel test bench simulates the highest possible load.

02 Extreme endurance athletes

Brand tires from well-known manufacturers

Over the course of its average lifetime, a tyre can travel far enough to circumnavigate the globe. As the main component that keeps the vehicle connected to the road, it has to be designed to handle a wide range of different driving conditions and provide performance you can rely on. A top quality tyre is essential. We work closely with leading premium tyre manufacturers to ensure that all our complete wheels provide optimum contact with the road surface.

03 When everything works together

The complete wheel assembly

Using the latest production technology, we automatically assemble wheels and tyres to form a single high-quality unit. Our precise assembly procedures are carried out in temperature-controlled environments to help ensure that all our complete wheels are of the highest quality and also provide you with a range of other key benefits:

- Optimised rotational and axial measurement for each and every wheel
- Vehicle-specific residual imbalance check
- Proper storage until the complete wheels are ready for delivery

City Crash Test

Because safety matters

Volkswagen's in-house crash tests are carried out at speeds and acceleration rates higher than those required under the DIN 75302 and ISO/PAS 11154 standards and the City Crash test¹ – because Volkswagen believes that its own City Crash Plus tests at 30 km/h and with a 20% overload on the roof are more realistic than the standards set by DIN and ISO.

The City Crash test simulates a rear-end collision in the inner city at a moderate speed of approximately 17 km/h. Although carried out by Stiftung Warentest and the ADAC, it is not a legal requirement in Germany.

Quality is when it just fits

For everyone who wants more: even more

More intelligent transport options, for instance. Or simply more tried-and-trusted Volkswagen Genuine Accessories quality. We know that this trust is not simply granted to our Genuine parts. It has to be earned again and again, day after day. By using materials that simply work perfectly together, designing products which simply look better, and providing functions which easily open up additional opportunities. In short: by making good things better every day. More beautiful, more functional, more comfortable.

Uncompromising satisfaction

Harder, stricter, further, more – Volkswagen test procedures for transport systems go beyond the legally prescribed standards. In terms of materials, in the laboratory and finally on the test track. Only 100 % top quality products earn the Volkswagen Genuine name. No compromises.

Laboratory tests: corrosion tests in salt water spray systems, UV resistance and many other laboratory tests examine all the relevant material properties. Certain products are exposed to extreme temperatures in climatic chamber tests. The functionality of the components must remain unimpaired at all times.

Endurance: whether over short distances, at high speeds or along demanding routes – we test our products' durability under continuous load conditions. Our special road endurance test is carried out using the maximum permissible load and a variety of different testing profiles.

Test track: Our test drives with very high forward and side-to-side acceleration, produced by weaving around obstacles, hard braking and by driving on cobblestone surfaces, subject the transport accessories to extremely tough conditions over and over again.

**Genuine quality is
always worthwhile:**

- Made-to-measure
- Simple installation
- Sophisticated system solutions
- High design standards

Accessories **Golf Sportsvan**

The sporty space-saving miracle with the heart of a Golf offers plenty of space: for the family, luggage, hobbies and, of course, for all your personal belongings. Keen for it to be little sportier? More comfortable? With pleasure!

The following vehicle-specific accessories have been specially tailored to your Golf Sportsvan. Equally as perfectly fitting, yet model-independent universal accessories can be found from page 182 onward.

Picture shows: "Premium" bicycle carrier, page 195; "Pretoria" alloy wheel, page 48

01-02 A feature that has what it takes. The **Volkswagen Genuine chrome-look rear protective strip** (01) on your Golf Sportsvan is both an attractive feature and also provides effective protection. With this, the sensitive rear section of your vehicle is well protected against scratches and paint damage. The rear protective strip is simply glued to the lower edge of the boot lid. The hard-wearing and yet visually appealing **Volkswagen Genuine stainless steel-look load sill protection** (02) ensures that nothing goes wrong when loading things into the luggage compartment.

Transport

NOTE

You will find our roof attachments in the universal accessories section from page 198 upwards.

01-02 Take everything you need with you in your Golf Sportsvan. Custom-fit and stable **Volkswagen Genuine cross bars**¹ (01) made of aerodynamically shaped aluminium profiles are attached to the roof railing, and form the base for the quick and stable fitting of all roof attachments. The retrofit removable (02) or fixed (not shown) **Volkswagen Genuine towing bracket** including 13-pin electrical installation kit provides a perfectly coordinated complete package. The ideal base for bicycle carriers or boat trailers.

03 Everything in view. The **Volkswagen Genuine rear view camera system**² realistically shows the area behind your Golf Sportsvan on the display of the radio navigation system. Reference lines and the high-resolution display help the driver navigate precisely into the parking space.

¹ City Crash-tested in accordance with ISO/PAS 11154

² Please note the camera's limited field of vision and the limits of the system. Please follow the vehicle wallet precisely.

Comfort and Protection

NOTE

Before starting off, ensure any load is properly secured in the luggage compartment.

01-04 Custom-fit protection for your Golf Sportsvan can be this lightweight and flexible. The robust, durable and custom-fit **Volkswagen Genuine luggage compartment tray (01)** with Golf lettering is the easy way to keep your luggage compartment clean and tidy. The surrounding raised rim reduces the risk of liquids running out into the luggage compartment. The wide-ribbed **Volkswagen Genuine boot liner (02)** with Golf lettering is extremely hard-wearing and suitable for anything that tends to make a mess in the boot of your Golf Sportsvan, such as dirty shoes or plants. It is easy-clean, thanks to its smooth plastic finish. Fitting the transparent **Volkswagen Genuine load sill protection (02)** is recommended to protect your paintwork when loading and unloading, and stop scratches in their tracks. Rely on **Volkswagen Genuine sill panel moulding films in black/silver (03)** to protect the heavily used sill areas of your vehicle. Protecting the value of your vehicle can also enhance its attractiveness. Scraping ice and freezing in your car in the early morning are now a thing of the past, thanks to the retrofittable and fully integrated **Volkswagen Genuine auxiliary heater^{3,4} (04)**/similar to the illustration).

³ Only for Germany, only for stop/start systems with brake energy recuperation. Not suitable for vehicles with climate windscreen.

⁴ Please contact your Volkswagen dealership for more information on model versions and whether the options can be installed on your particular vehicle.

01-03 Well protected in every situation. Protect your Golf Sportsvan and the vehicle behind from flying dirt, hazardous stones and spray with these extremely hard-wearing **Volkswagen Genuine mudflaps** (01). **Volkswagen Genuine door wind deflectors** (02) enable you to keep the windows slightly open, and enjoy fresh air even when it is raining or snowing. The custom-fit **Volkswagen Genuine sun blind** (03) enhances the comfort of passengers on the rear bench seat of your Golf Sportsvan by protecting them from direct sunlight.

Comfort and Protection

04-08 In line with the principle "It's what's inside that matters", Volkswagen Accessories places great emphasis on the protection of the interior of your vehicle. Tailor-made **Volkswagen Genuine "Premium" textile floor mats** (04) made of hard-wearing velour feature Golf lettering on the front mats. **Volkswagen Genuine "Optimat" textile floor mats** (05) with Golf lettering on the front mats combine the features of rubber floor mats with the elegance of textile floor mats. Hard-wearing **Volkswagen Genuine all-weather floor mats** (06) with Golf lettering on the front mats keep dirt and moisture away from the footwell of your vehicle all year round. Practical **"Plus" textile floor mats** (07) and **"Plus" rubber floor mats** (08) ensure pleasant cleanliness in the footwell of your vehicle.

Accessories **ID.3**

You embody the new generation of electric mobility with your ID.3. A generation that does not fail to inspire in terms of performance, design and range. And, of course, with the right accessories.

The following vehicle-specific accessories have been specially tailored to your ID.3. Equally as perfectly fitting, yet model-independent universal accessories can be found from page 182 onward.

Sport and Design

01-05 Visual highlight features, complemented by proper protection: a mix that suits your ID.3. **Volkswagen Genuine exterior mirror caps** in sophisticated black (01), sporty carbon-look (02) or attractive matt chrome-look (03), deliver the sporty and elegant detailing. Simply replace the caps (high-gloss black and matt chrome) or stick the elements onto the existing caps (carbon-look) and enjoy the new look. **LED exterior mirror turn signals with dynamic turn signal** (04) help to warn other road users when you are about to turn thanks to the running light effect. The tinted, darkened "Black Edition" light strip gives the turn signals a sportier look. Plug & Play makes them simple to retrofit. The **Volkswagen Genuine chrome-look rear protective strip** (05) protects your paintwork from scratches and makes a visual statement.

Transport

01 Looking for flexibility and cleverness? Our retrofit **Volkswagen Genuine bicycle carrier preparation** enables you to fit a bicycle carrier so that you can always take your bicycles with you in your ID.3. Then pack away your bicycle carrier in the made-to-measure transport bag for the carrier.

01 Custom-fit protection for your ID.3 can be this lightweight and flexible. The **Volkswagen Genuine luggage compartment insert** (not shown) combines practical benefits, protection, convenience and quality. Its non-slip finish also helps to stop items from sliding around. It protects the luggage compartment from dirt and moisture. The robust, durable and custom-fit **Volkswagen Genuine luggage compartment tray** (01) with ID.3 lettering is the easy way to keep your luggage compartment clean and tidy. The surrounding raised rim reduces the risk of liquids running out into the luggage compartment.

Comfort and Protection

02-03 Distinctively elegant or subtly restrained? It's your choice with the **Volkswagen Genuine load sill protection** for your ID.3. It is available as a brushed black (03) or as a transparent film (02) strip. Regardless of which version you opt for, the load sill protection effectively protects your sill against damage when loading and unloading.

04 Regardless of how you corner and manoeuvre your ID.3, it nonetheless deserves optimum protection. The custom-fit **Volkswagen Genuine reversible floor covering** has the right surface for all sensitive, dirty or damp goods. The robust protective fabric for the load sill can be folded out from the reversible mat and thus is an effective help in avoiding scratches when loading and unloading your ID.3.

DETAIL

Once turned, the sturdy plastic studs on the rear side of the reversible floor covering fix it into place so it can protect your vehicle from even heavy dirt and loads.

01-02 Protecting the value of your vehicle can also enhance its attractiveness. Rely on custom-fit **Volkswagen Genuine sill panel moulding films in black/silver** (01) and on virtually invisible, but visibly effective **Volkswagen Genuine transparent sill panel moulding films** (02) to protect the heavily used areas of your ID.3. Protect your ID.3 and the vehicle behind from flying dirt, hazardous stones and spray with these extremely hard-wearing **Volkswagen Genuine mudflaps** (not shown).

03 Outstanding comfort even on the rear seats. The custom-fit **Volkswagen Genuine sun blind** enhances the comfort of passengers on the rear bench seat of your ID.3 by protecting them from direct sunlight.

04 The perfect partner for your ID.3 when out and about. The practical **Volkswagen Genuine emergency charging cable** including storage bag lets you simply charge your electric vehicle on a normal household socket even without a charging station¹. This lets you continue your journey to the nearest charging station. The use of a home charging station is recommended for fully charging your vehicle overnight at home. The practical **folding box** is ideal for transporting the emergency charging cable in the luggage compartment.

¹ The socket needs to be in perfect technical working order and have been professionally installed.

Comfort and Protection

01-02 A clean affair. Quickly get rid of sweet wrappers and chewing gum papers and prevent them from flying around the inside of your Volkswagen in the **Volkswagen Genuine waste container** (01) for the cup holder. Safety first. This also applies to the luggage compartment of your Volkswagen. The **Volkswagen Genuine luggage compartment plug-in module**¹ (02) lets you flexibly partition your vehicle's luggage compartment, preventing goods from sliding around.

03-04 Small and medium objects in the luggage compartment always remain fixed in place, thanks to the tear-resistant **Volkswagen Genuine luggage net**¹ (03). The energy-efficient (A++) **Volkswagen Genuine cool and thermos box** (04), which has a capacity of approximately 25 litres, helps to keep snacks and drinks at a perfect temperature at all times. The box connects to a 12 V/230 V socket in the car or home.

¹ Refer to page 216 for an overview of all models. Please enquire at your Volkswagen dealership whether the options can be installed on your particular vehicle.

Comfort and Protection

01-03 A tidy house, a tidy mind: also in your Volkswagen. **Volkswagen Genuine "Clean Solution" waste bag (01)**, which attaches to the headrest struts of the front seats to keep the interior of your vehicle clean and tidy. When a bag is taken out, a new one is automatically pulled into place. The **Volkswagen Genuine "Snakey" headrest hook¹ (02)** is a handy twin pack of organisers, which can be mounted onto the headrest struts of the front seats. The energy-efficient **Volkswagen Genuine LED reading lamp (03)** with adjustable swan neck and Volkswagen logo lets your passengers enjoy a comfortable and glare-free light when travelling in the dark. It is connected to the cigarette lighter or a 12 V socket.

04

05

04-05 Your Volkswagen is designed to be comfortable. But you can make it even more comfortable – with well-thought-out Volkswagen Accessories. The “dfreeze®” auxiliary heater control (04) lets you conveniently control the auxiliary heater from your smartphone or online app, regardless of the distance. The speed of your Volkswagen can be simply maintained at the press of a button with the **Volkswagen Original cruise control system**¹ (05). A maximum speed can be fixed using the additional “Speed Limiter” function, which is then not exceeded, even at full throttle.

¹ Gradients and slopes may affect the performance of the cruise control system. Please take system limits into account.

NOTE

One base, so many options: all the different modules can be mounted easily onto the base holder and flexibly swapped as required.

Interested in more ingenious ideas? No problem. The modular **travel and comfort system** enhances comfort for younger and older passengers in the passenger compartment. Tablet holders for various models and the folding table¹ provide a host of new possibilities for passing the time. The bag hook² and clothes hanger² are maybe the most convenient ways of transporting your belongings with care when no one is sitting on the rear bench seat.

Overview of our **child seats**

01

02

01-02 Rest assured. Your most precious treasures are well secured and sitting comfortably on board in our child seats – from babies onwards. Four thoroughly tested **Volkswagen Genuine Accessories child seat models** (04-08), some with innovative SecureGuard technology and the matching **Volkswagen Genuine Accessories seat cover** (02) for underneath, are available. And also the **Volkswagen Genuine additional interior rear view mirror** (01) that lets you keep an eye on your loved ones at all times.

NOTE

Thanks to the base station's practical rotation function, the seats can be rotated 90° in both directions.

03

04

03-04 With the innovative Volkswagen Genuine Accessories child seat system, you receive a high level of comfort and flexibility for safely transporting your little ones – from birth to 15 months (83 cm / 13 kg). The system consists of the base station **Volkswagen Genuine Accessories "Flex Base i-SENSE"** (03) and the specially designed **Volkswagen Genuine Accessories "i-Size" infant carrier** (04). Once the base station is attached to the vehicle, the **Volkswagen Genuine Accessories "i-Size" infant carrier** can be easily installed and removed again with just one click, with or without the sun shade. Thanks to the practical 90° rotation function, placing and strapping in, or unstrapping and lifting out your baby literally become "child's play". When the vehicle is moving, the infant carrier faces backwards. In addition to the rotation function, the base station can also be adjusted to one of four tilt angles. A number of safety functions, like the 5-point belt system, make sure that your baby is always secure and comfortable while you're on the road.

Comfort and Protection

NOTE

Thanks to the base station's practical rotation function, the seats can be rotated 360°.

05

06

07

08

05 The **Volkswagen Genuine Accessories "Dualfix i-Size"** is suitable for newborns and young children up to the age of four years (105 cm / 18 kg). Thanks to the 360° rotation function, the seat can face both forwards and backwards. You are recommended to use the backwards-facing position to transport your child for as long as possible. With twelve seat positions and a number of adjustment options, the seat grows with your child, making it your reliable companion for a number of years. Thanks to innovative safety functions like the SICT side collision protection or the Pivot Link ISOFIX system, your young passenger is always well protected, even in the event of an accident. The support bracket, which can be adjusted by 8°, can be adapted flexibly in line with the backrest, offering your child up to 10% more legroom if necessary.

06 The **Volkswagen Genuine Accessories "TRIFIX i-Size"** is the first child seat after the infant carrier, because it is ideally suited to the needs of children between 76 and 105 cm. Thanks to the built-in ISOFIX and Top Tether fittings, it is easy and convenient to install. The enhanced seat cushion ensures that your child has enough space while they grow – from 15 months to around four years old (76-105 cm/ up to 18 kg). A total of four adjustable positions offer a high level of comfort for your little ones. Thanks to innovative safety functions like the SICT side collision protection, the V-shaped head restraint and the Pivot Link ISOFIX system, forces of impact are cushioned in the event of an accident – after all, your child's safety is always the number one priority. The ISOFIX connectors are integrated directly into the "TRIFIX iSize" and leave the infant carrier and base free for little brothers or sisters.

07-08 Your children aged 3½ to 11 years (100-150 cm/ 15 to 36 kg) always enjoy comfortable and safe journeys in the **Volkswagen Genuine Accessories "KIDFIX i-Size"** (07). Thanks to the soft, padded fabric cover and the ventilation holes in the seat, your little ones enjoy a comfortable temperature during every journey. Thanks to various safety features, such as the special seat frame, the optimised seat belt guides at the top and bottom, and the padded head restraint, your child is not only well secured at all times, but also very comfortable. Another of the safety features is the innovative SecureGuard, which provides extra protection to your child's stomach thanks to an additional fourth seat belt fastening. The backrest can be removed and ensures more flexibility for children over 138 cm. For safety reasons, however, the backrest should remain attached to the seat as long as possible. Thanks to the seat's slim design, up to three "KIDFIX i-Size" seats can be installed next to one another, depending on the vehicle. The child seat is also available in an extra sporty GTI version (08) – with the same high standard of comfort and safety.

08 The **Volkswagen Genuine fire extinguisher** containing 1 kg of extinguishing powder ensures that you are well prepared in the event of an emergency, such as a vehicle fire. A **holder** (not shown) to securely fix it in the footwell is available separately.

09 Absolutely necessary and required by law: the orange-coloured and fluorescent **Volkswagen Genuine warning vest**¹ with Volkswagen lettering and reflective signal stripes.

¹ As of 1 July 2014, all drivers in Germany are required by law to carry a safety vest in their vehicle (with the exception of motorcycles and mobile homes); and in other European countries, a safety vest must be carried for all vehicle occupants.

Comfort and Protection

10 The innovative solution for cleanliness you can feel. The refillable **Volkswagen Genuine display cleaner 2-in-1** combines a cleaning spray and microfibre cloth. Simply practical! The display cleaner can be topped up and re-used again and again. Good for the environment and your wallet.

11 The perfect partner when out and about. The practical **Volkswagen Genuine emergency charging cable** including storage bag lets you simply charge your electric vehicle on a normal household socket even without a charging station¹. This lets you continue your journey to the nearest charging station. The use of a home charging station is recommended for fully charging your vehicle overnight at home. The practical **folding box** is ideal for transporting the emergency charging cable in the luggage compartment.

12 Small animals – big impact. If martens chew on a vehicle's ignition cables or electric systems, they can leave it at risk of breaking down, leading to expensive repairs. Effectively prevent these pests in advance with effective **vermin repellent** products – from preventively effective deterrent spray² to electronic products. Refer to page 219 for an overview of all products.

¹ The socket needs to be in perfect technical working order and have been professionally installed.

² Use vermin repellent spray safely. Always read the label and product information before use.
