Alloy wheels and complete wheels 13

Communication 21

Volkswagen Accessories. 100% Volkswagen.

Every single Volkswagen Genuine Accessories product is developed in parallel with the vehicle itself, and manufactured from high-quality materials using state-of-the-art production processes.

We carry out strict safety tests on many accessories, some exceeding the legally required standards.

So that you stay satisfied – and your Volkswagen stays a Volkswagen.

100% fun

while driving
and styling it up.

So much power, so many options – create an even bolder look for your Volkswagen with our wide range of Sport and Design accessories. With an extra dose of power, dynamism or sportiness – it's completely up to you. Make driving even more fun!

01

01 Volkswagen Genuine front trim, black/silver: For a sporty off-road look. The Volkswagen Genuine bumper trim gives the vehicle a powerful and distinctive edge. It emphasises the striking front of the Amarok and its textured design adds a touch of classic off-road style. The two-tone trim spans the front of the vehicle.

02 Volkswagen Genuine front trim, brushed aluminium: The brushed aluminium front trim emphasises the premium style of the Amarok. It gives the front a high-quality, off-road look and highlights the vehicle's dynamics.

03 Volkswagen Genuine key cover: Give your car keys a makeover with an attractive key cover. Available in a range of designs and lettering options. Simply attach your key and away you go.

04 Genuine Volkswagen badge "Wolfsburg crest": With the premium, full-size curved "Wolfsburg crest" badge in Black/Chrome, you can add an extra dash of individuality to your vehicle. The badge can be used on any vehicle and is easy to attach. The scope of delivery includes two badges, one cleaning cloth and installation instructions.

05/06 Volkswagen Genuine decal pack: Emphasise the Amarok's powerful style with these high-quality decorative films in black and silver. The Amarok lettering makes a striking statement that highlights both the powerful and stylish sides of your vehicle. The pack consists of four film decals for the lower door areas. Only for the Amarok.

05 Decal pack, silver

06 Decal pack, black

07/08 Volkswagen Genuine styling bar: A visual highlight with an amazingly powerful and robust look. The twin pipe styling bar gives your pick-up a distinctive, powerful edge. The 76 mm bars are mounted onto the edge of the load compartment without taking away any of the loading volume. Can be combined with the plastic load compartment cover. Only for the Amarok.

07 Stainless steel, mirror-finish

01

01 Volkswagen Genuine running board: For striking side lines. The aluminium running boards are custom-made to fit your vehicle perfectly. They not only give it an elegant look, but also make it easier to enter and exit the vehicle. The running boards are mounted onto the vehicle's standard mounting points and do not require any additional drilling to install. Capacity: up to 200 kg per running board. Only for the Amarok.

02 Volkswagen Genuine side bar: These solid side bars are made from mirror-finish stainless steel and are designed to give your Amarok a sporty yet elegant feel. Without any need for drilling, the side bars are simply secured to the vehicle's standard mounting points using the brackets included in the scope of delivery. Only for the Amarok.

03/04 Volkswagen Genuine side bar with step:

The side bar is both an impressive highlight and a practical feature to help you enter and exit the vehicle and load items onto the roof. The solid side bar with integrated step gives your vehicle a striking look. Powerful and robust, it comes in black, powder-coated steel or sporty and elegant mirror-finish stainless steel. Both versions are mounted onto the vehicle's standard mounting points using the six brackets included, with no need for any additional drilling. Capacity: up to 200 kg. Only for the Amarok.

03 Stainless steel, mirror-finish

04 Black

05 / 06 / 07 Volkswagen Genuine side bar with LED lights: Effective protection and a powerful look. Enjoy both with these solid side bars with integrated LED lights for the Amarok, available in either a sporty and elegant mirror-finish stainless steel, or a more subtly sporty black. Optional integrated steps make getting in and out of the vehicle easier. Paired with the Coming Home function, the lights ensure that the entry and exit areas at all four doors are always perfectly illuminated. They are attached to the standard mounting points – there is no need to drill any additional holes. Requires installation kit 2H6.071.970. Only for the Amarok.

05 Stainless steel, mirror-finish

06 Stainless steel, mirror-finish, with step

07 Black, with step

! NOTE

See page 10 for a full overview of our **side bars** and **running boards**.

Sport and Design

This overview shows the options available for the individual products in our Sport and Design range for our current commercial vehicle models. Please contact your Volkswagen dealership for more information as to whether the options can be used in your particular vehicle. Many of the products are available in different variants. See the price list for an overview of all available versions.

Additional Sport and Design products specifically tailored for your vehicle can be found in the relevant vehicle catalogue

Illustration shows: Corvara wheel, page 17.

Absolutely no compromises when it comes to safety.

When it comes to safety, there is no room for eventualities.

Choose from our range of alloy wheels or complete wheel designs with uncompromisingly high quality and custom-made design.

The ideal basis for a safe, stylish and fun driving experience that lasts.

→ **Volkswagen Genuine hub caps¹**

Volkswagen Genuine hub caps with an embossed Volkswagen logo impress with their dynamic spinning function, which guarantees that the Volkswagen logo remains in the perfect position while driving and in any parking situation.

¹ Use of the hub cap depends on the wheel.
Please ask your Volkswagen dealership.

Reliable complete wheels.

Understanding the essentials. Our manufacturing expertise.

Our complete wheels represent everything that Volkswagen Accessories stands for: outstanding quality, maximum safety standards and state-of-the-art design. No other vehicle component bears as much responsibility as the wheel. Both in terms of safe driving and the vehicle's overall appearance. Which is why we offer such an extensive range of complete wheels. Complete wheels from Volkswagen Accessories are designed to match the corresponding Volkswagen models perfectly. Drawing on their many years of experience, our engineers choose the ideal combination of wheel, tyre and vehicle to ensure that each design meets Volkswagen's high quality and safety standards. Our technical installation checks are an integral part of this, taking into account the engine variants and brake dimensions as well as axle loads.

Scan the QR code to explore the full range of alloy wheels and complete wheels from Volkswagen Accessories.

Only the best succeed. Volkswagen Genuine alloy wheels.

- Strength tests check the wheel loads when the vehicle is overloaded, in a collision and driving round corners.
- The materials and surfaces are tested for resistance to traction, extension, scratches and corrosion.
- Test drives on the track put the complete wheels through their paces under tough conditions.
- Endurance testing on the dual-axle wheel test bench simulates the highest possible load.

Extreme endurance athletes. Our selected premium tyres.

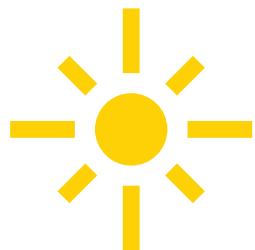

Over the course of its average lifetime, a tyre can travel far enough to circumnavigate the globe. As the main component that keeps the vehicle connected to the road, it has to be designed to handle a wide range of different driving conditions and provide performance you can rely on. A top-quality tyre is essential. We work closely with leading premium tyre manufacturers to ensure that all of our complete wheels provide optimum contact with the road surface.

When everything works together. The complete wheel assembly.

Using the latest production technology, we can automatically combine rims and tyres to form a single high-quality unit. Our precise assembly procedures are carried out in temperature-controlled environments to help ensure that all of our complete wheels are of the highest quality, and also provide you with a range of other key advantages:

- Optimised rotational and axial measurement for each and every wheel.
- Residual imbalance check for each individual vehicle.
- Expert storage until the complete wheels are ready for delivery.

Summer alloy wheels

Our attractive summer alloy wheels deliver an outstanding combination of timeless design and excellent quality.

Illustration shows: **Base module, Universal tablet holder and safety cases**, pages 22 and 70.

1000 words
often say more
than enough.

Communication is everything. In this case, this means anything you want. Make the most of everything that modern technology has to offer: a high degree of connectivity, comprehensive Infotainment, precise navigation. But enough with the words – simply see for yourself.

01/02 Universal tablet holder and safety cases: One for all: both the universal tablet holder for the modular travel and comfort system and the protective safety cases are compatible with a wide range of tablets currently available on the market. Simply fit the universal holder to the base module, insert the tablet into the matching safety case and then attach to the universal holder. Please check the price list for the safety cases available. Only in conjunction with the base holder for the modular travel and convenience system.

01 Volkswagen Genuine universal tablet holder

02 Safety cases

Scan the QR code and experience the modular travel and convenience system with moving pictures.

¹ This function depends on the Infotainment system in your vehicle. Please observe the notes in your vehicle manual.

² Videos must not be viewed while driving.

03 Tablet holder: A real pleasure for passengers. This innovative tablet holder from the modular travel and convenience system range allows rear seat passengers to use their tablet conveniently and flexibly. It features a swivelling axis so that the tablet can be positioned either vertically or horizontally, and it can tilt and lock into place to keep it at the perfect angle. The modular travel and convenience system base module, which enables you to connect the tablet holder to a headrest, must be ordered separately.

04 Action camera holder: For moving moments: you can use the action camera holder to attach compatible action cameras to the modular travel and convenience system. This allows you to do things such as keep an eye on children travelling on the rear bench. You can stream the images directly to your vehicle's information display,^{1,2} and with the swivelling, lockable arm and 360° rotating bracket with marked degree intervals, you can easily align the camera with the area you wish to view. The modular travel and convenience system base module is required to use the action camera holder.

! NOTE

You can find the complete modular **travel and comfort system** on page 70.

01

02

03

01 Volkswagen Genuine CarStick LTE: The Volkswagen CarStick LTE can be used to generate an internet connection for our mobile online services (Volkswagen CarNet) so you can use them without having to tether a smartphone. It also allows you to create a Wi-Fi hotspot in your vehicle in seconds. Simply insert a suitable SIM card¹ into the Volkswagen CarStick LTE, and connect it to the "Discover Media" navigation system. You can then connect any Wi-Fi enabled device to your own on-board network. Simply plug it into the vehicle's own USB port and off you go.

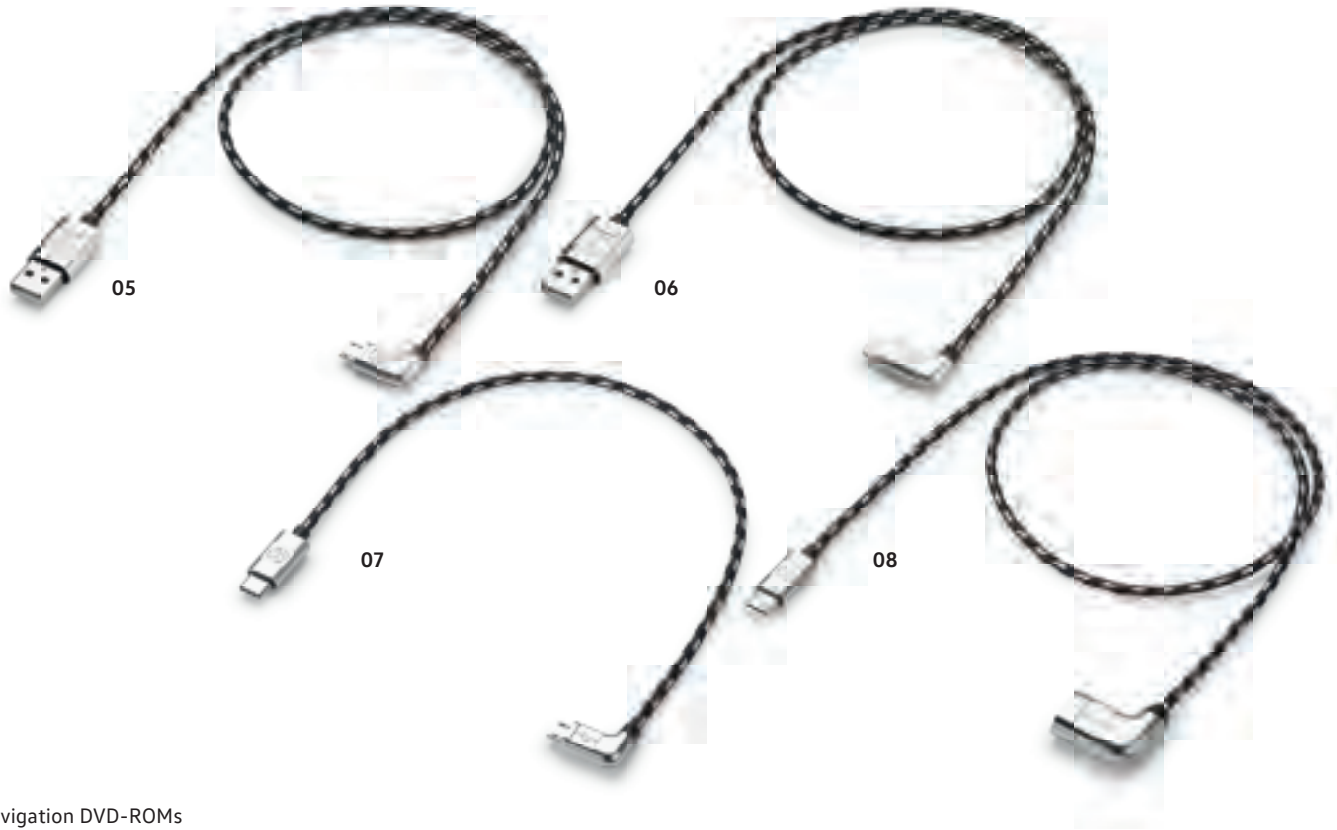

02 PhoneKit Bluetooth hands-free system: Enjoy mobile freedom with the PhoneKit hands-free system. It connects to your phone via Bluetooth so you can keep your hands on the wheel while you talk. The system is operated via an illuminated 3-button remote control panel. This is the only visible part of the easy-to-install system.

03 AppConnect activation document: AppConnect includes three innovative technological functions which you can use to display your smartphone apps on the touchscreen of the Infotainment system in your Volkswagen: MirrorLink™, Apple's new CarPlay™ function and Google's Android² Auto™ function². MirrorLink™ enables you to connect your MirrorLink™-compatible smartphone to your vehicle and conveniently operate selected apps via your Infotainment system screen. Thanks to Android² Auto™ from Google², you can conveniently operate your own smartphone apps with the Android operating system while driving³. And with CarPlay™ from Apple you can control selected apps from your iPhone² while on the road. Using the apps is as intuitive as it usually is on your iPhone². The use of Apple CarPlay™ is only available in conjunction with an Apple²-compatible USB port. For vehicles from model year 2016 onwards. Not for the T6.

¹ SIM card and mobile data usage are not included and must be purchased separately from a suitable mobile phone provider. Depending on the provider, additional costs may be incurred for data use.

² iPhone, iPod, iPad, iPad mini, iPad Air, Apple Lightning are registered trademarks of Apple Computer International. Galaxy Tab is a registered trademark of Samsung Electronics Co., Ltd. Android is a trademark of Google Inc.

³ Driver distraction may lead to accidents and serious injuries. Do not attempt to pair a mobile phone and vehicle while driving.

Volkswagen Genuine navigation update (not illustrated): Never lose your way: Our navigation DVD-ROMs contain the latest map data for a number of European countries, and are available for many different radio navigation systems. See the price list for an overview of all available updates.

04 Volkswagen voice control activation document: With the retroactive activation option for the voice control function, the phone and radio in the "Composition Media" radio can be controlled using voice commands, and this also extends to the navigation function in the "Discover Media" navigation function. Not for the T6.

05/06 USB Premium connection cable: Connect your smartphone to your Volkswagen's Infotainment system using the specially-designed Premium USB cable, and enjoy functions such as CarPlay™ in AppConnect while charging your device at the same time. The cable is designed to match the vehicle interior, with a textile surround and chrome-plated metal connector with a Volkswagen logo. See the price list for an overview of all available versions and various cable lengths.

- 05** USB Premium connection cable, USB-A to Micro-USB (30 cm/70 cm)
- 06** USB Premium connection cable, USB-A to Apple Lightning (30 cm/70 cm)
- Not ill. USB Premium connection cable, USB-A to USB-C (30 cm/70 cm)

3 wishes:

Secure. Transport. Solutions.

Is it really true that all good things come in threes? Sometimes you just need that little bit more on board. And it has to be safe. Volkswagen Accessories transport systems have been developed to fulfil exactly this wish. Custom-made solutions perfectly tailored to one another – ready to go.

Quality is when it just fits.

For all those who want more: even more.

More intelligent transport options, for instance. Or simply more of the proven Volkswagen Genuine Accessories quality. We know that this trust is not simply granted to our Genuine parts, but it has to be earned again and again, day after day. By using materials which simply work perfectly together, designing products which simply look better, and providing functions which simply open up additional opportunities. In short: by making good things better every day. More beautiful, more functional, more comfortable.

Uncompromising satisfaction.

Harder, stricter, further, more – the Volkswagen test procedures for transport systems go above and beyond the legally prescribed requirements. In terms of materials, in the laboratory and finally on the test track. Only 100 % top quality products earn the Volkswagen Genuine name.

Laboratory tests: Corrosion test, UV resistance, environmental compatibility and many additional laboratory tests examine all the relevant material properties. Certain products are exposed to extreme temperatures in climatic chamber tests. To pass, the functionality of the components must remain unimpaired whatever the conditions.

Endurance: Whether over short distances, at high speeds or along demanding routes – we test our products' durability under continuous load conditions. The special road endurance test is carried out using the maximum permissible load and a variety of different testing profiles.

Test track: Our test drives with maximum forward and side to side acceleration, produced by weaving around obstacles, hard braking and by driving on cobblestone surfaces, subject the transport accessories to tough test conditions over and over again.

Volkswagen Accessories.

Because Genuine quality is always worthwhile.

→ Genuine quality is always worthwhile:

- Made-to-measure
- Simple installation
- Sophisticated system solutions
- High design standards

City Crash test.

Because safety matters.

Volkswagen's in-house crash tests are carried out at speeds and acceleration rates higher than those required under the DIN 75302 and ISO/PAS 11154 norms and the "City Crash" test – because Volkswagen believes that its own "City Crash Plus" tests at 30 km/h and with a 20% overload on the roof are more realistic than the standards set by DIN and ISO. The City Crash test simulates a rear-end collision in the inner city at a moderate speed of approximately 17 km/h. Although carried out by "Stiftung Warentest" and the "ADAC", it is not a legal requirement in Germany.

01 Volkswagen Genuine roof bars: Stay well equipped when on the move – with the Volkswagen Accessories support systems. These all use the custom-fit, aerodynamically-shaped aluminium profile roof bars as a base, which you can then use to attach fittings such as surf board, bicycle, ski and snowboard carriers or our practical roof boxes to the vehicle roof in no time at all. The roof bars come fully pre-assembled and are not only City Crash¹ tested, but have also passed the even stricter standards of the Volkswagen City Crash Plus test. The easy-to-install aerodynamic profile minimises wind noise.

02 Volkswagen Genuine cross bars: The custom-fit cross bars are made using aerodynamic aluminium profiles and are not only City Crash¹ tested but have also passed the even stricter requirements of the Volkswagen City Crash Plus test. They form a robust yet light base system for all roof attachments, and can be mounted onto the roof rails quickly and easily. The anti-theft locking device protects you from any nasty surprises.

03 Roof bars for the Crafter: The City Crash tested¹ roof bars act as a base for all of our bodies, allowing you to expand the amount of cargo you can transport. They can only be used in conjunction with C-rails on the roof of the vehicle. Only for the Crafter with normal roof (load capacity: 300 kg) and high roof (load capacity: 150 kg). 1 set = 3 roof bars.

04 Volkswagen Genuine storage bag for roof bars and cross bars: This robust storage bag with the Volkswagen logo is suitable for all Volkswagen Genuine roof bars and cross bars. The length of the bag is adjustable. There is also an additional compartment for storing the installation instructions and installation wrench.

¹City Crash-tested in accordance with ISO/PAS 11154

01 Surfboard carrier: Get your surfboard safely to its destination. The rubber-coated surfboard supports and special rubber guards for the metal clamps on the tensioning straps provide extra protection during transport. Suitable for one surfboard with a two-piece mast.

02 Volkswagen Genuine kayak carrier: No bouncing, no slipping. Developed for kayaks weighing up to 25 kg, this holder adapts to suit the shape of the vessel. Four moveable rubber supports secure the kayak during transport. And strong tensioning straps ensure it stays firmly in place.

03 Volkswagen Genuine ski and snowboard carrier "Comfort": The aerodynamically designed aluminium ski and snowboard carrier is easy to install on cross bars or roof bars. The ski carrier features a practical pull-out function to make it easier to load and unload, while the extra-large opening buttons are designed for easy use, even when wearing thick gloves. The ski and snowboard carrier is also suitable for transporting wakeboards and is available without the pull-out function. See the attached price list for an overview.

- 01 
- 
- 

! NOTE
The practical pull-out function makes the ski and snowboard carrier very easy to load and unload.

04 Volkswagen Genuine bicycle carrier: Transport your bicycle reliably, steadily and upright on the roof of your Volkswagen using the Volkswagen Genuine bicycle carrier. The frame carrier and wheel rail have been designed to move the bicycle into the correct position automatically, and keep it there. The innovative torque limiter rotary knob controls the torque on the bicycle frame. The frame carrier has large soft pads to protect the bicycle frame. The wheels are held firmly in place using diagonal retaining straps with quick-action tensioners. The bicycle can be locked to the bicycle carrier and the bicycle carrier to the roof bars or cross bars. It can be switched from one side of the vehicle to the other quickly and easily, without additional tools, and meets Volkswagen's high test standards having passed the City Crash Plus¹.

05 Fork-mount bicycle carrier: Light, elegant and practical to use. This lockable bicycle carrier with a curving, aluminium wheel rail features an easily adjustable quick-fastening system for all types of bicycle forks. The carrier can be attached to the roof bars or cross bars easily, ensuring your bicycle is ideally transported with its convenient quick-action clamp for the rear wheel. An adapter for 20 mm diameter quick-release axles is included.

¹City Crash-tested in accordance with ISO/PAS 11154

! NOTE

Other carrier systems can also be mounted onto the roof bars for the rail system, including the "Comfort" ski and snowboard carrier on page 34.

01/02 Volkswagen Genuine roof bars for the rail system: Flexibility creates freedom. The roof bars are mounted on the Amarok's rail system and provide an additional transport option on the loading surface. They can be used with a wide range of transport solutions. Only in conjunction with the rail system (see right). Only for the Amarok.

03 Volkswagen Genuine rail system:

The rail system handles almost any transport task thanks to the universal side and floor rails. The sets for the side walls and the load platform each consist of two rail profiles and four lashing strap fittings. The rails can be used with a wide range of straps, cargo nets and roof bars. So cargo can be secured safely and without any risk of slipping around the load compartment. See the attached pricelist for an overview of all of the versions.

04 Volkswagen Genuine net pocket for the rail system: This net pocket for the load compartment is suitable for stowing small objects and prevents them from flying loose around the loading surface. It attaches to the rail system. Only for the Amarok.

! NOTE

More information on the lashing strap fitting can be found on page 52.

01/04 Volkswagen Genuine "Comfort" roof box in black gloss:

The Volkswagen Genuine "Comfort" roof box features an optimised, aerodynamic shape that largely eliminates unpleasant driving noise. It impresses with its sophisticated, pre-mounted quick-release mechanism. The box is equipped with an innovative "DuoLift" system, which enables it to be opened conveniently from either side. Three internal tensioning straps prevent the load from shifting. The roof box is fitted with a theft-resistant 3-point central locking system. At up to 2.30 m long (Comfort 460), it is ideal for transporting items such as skis and snowboards. The roof box is available with a capacity of 340 or 460 litres. See the price list for an overview of all available versions.

02 "Basic" roof box in black matt: The aerodynamically-optimised shape of the "Basic" roof box coordinates with the modern design lines of the latest Volkswagen models. It significantly reduces unpleasant noise while driving. The box opens from one side and is equipped with a 2-lock system. The Comfort sliding fitting system enables you to fit the roof box onto the cross bars or the roof bars in just a few easy steps. The roof box is available in capacities of up to 340 and up to 460 litres. See the price list for an overview of all available versions.

03 Volkswagen Genuine ski bag: This practical ski bag can be used to protect and transport up to four pairs of skis and poles in the roof box or the interior using a belt clipped into the belt buckle.

05 "Urban Loader" roof box: The "Urban Loader" roof box with expandable load capacity provides additional cargo space and is perfectly suited for transporting shopping, bags, suitcases, pushchairs and sports equipment, along with many other everyday necessities. The capacity of the roof box can be quickly and easily increased to up to 500 litres depending on what you are transporting. The zip fastener enables it to be opened, loaded and unloaded on both sides. The intelligent jointed steel frame with two springs makes the box easy to open and close.

01

02

03

04

! NOTE

With the innovative DuoLift system, the "Comfort" roof box can be opened easily from both sides.

An overview of all roof boxes

In vehicles with rod aerials, the aerial may come into contact with the roof box depending on the vehicle model and aerial length. The aerial may have to be unscrewed if necessary. Depending on the vehicle configuration or model selection, the roof box may collide with the boot lid when open due to the different lengths. Please observe the vehicle-dependent load conditions.

→ **QUICK-ACTION CLAMP**

Pre-set quick-action clamp for a secure and easy way to clamp the supporting bar!

01

Scan the QR code and experience the transport options as moving images.

02

! NOTE

When completely folded together, the carrier can be stowed in the luggage compartment in a compact form.

03

! NOTE

The optional transport bag helps you safely transport the "Premium" and "Basic" bicycle carriers and store them cleanly.

04

! NOTE

Separating loading ramp for space-saving transport/storage. Delivery includes a bag.

05

01/02/03/05 Volkswagen Genuine "Premium" bicycle carrier: The Volkswagen Genuine "Premium" bicycle carrier for two bicycles or electric bikes boasts both an incredibly lightweight design and a new, innovative attachment mechanism. The carrier fits onto the ball head automatically; all you have to do is slide it on vertically and fold it down into place. The newly patented lever-free locking mechanism allows for easy, effortless assembly. And the innovative, removable spacers with anti-theft protection make the carrier very simple to use. It also features a foot pedal that allows you to fold the carrier open to a wide angle. This keeps the luggage compartment fully accessible, even on vehicles with large tailgates. The carrier can be folded down completely to a very small size and stowed away in the luggage compartment. The Volkswagen Genuine number plate

carrier with Volkswagen lettering adds the perfect finishing touch to the "Premium" carrier. A transport bag for protecting the carrier and a loading ramp to make it easier to load heavy bicycles are also available as an option.

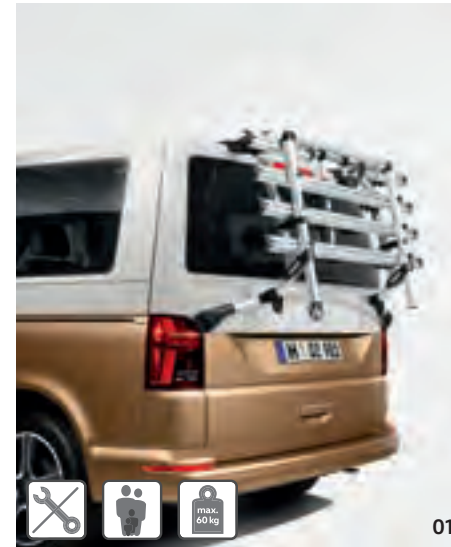

01/04 Volkswagen Genuine loading ramp: The loading ramp acts as a loading aid, enabling heavy bicycles to be easily rolled onto the bicycle carrier for the towing bracket. When not in use, the rail can be folded up and transported in the provided storage bag inside the vehicle. The ramp can be used with the Volkswagen Genuine "Premium", "Compact II", "Compact III", "Basic Flex" and "Basic" bicycle carriers.

! NOTE

The technical information for all bicycle carriers is provided on page 46. Tow hitch and electrical installation kits can be found on page 47.

01 Volkswagen Genuine "Comfort" tailgate bicycle carrier: An innovative helper. The Volkswagen Genuine tailgate carrier is a compact transport option for the rear of the vehicle that coordinates perfectly with the T6's lines. It is supplied fully assembled and is a space-saving option for transporting up to four bicycles on the tailgate. The intelligent design means that you can still open the tailgate easily, even when the carrier is attached (without bicycles). The bicycles' positions can be adjusted individually to ensure that they are not touching by moving the mounting feet along the aluminium bicycle rails. The lockable frame holders can be removed individually and make loading the carrier much more convenient. The wheels are held firmly in place using the quick-action tensioner. Maximum load capacity: 60 kg. Only for the T6.

02 Volkswagen Genuine "Premium" tailgate bicycle carrier: Beautiful in its simplicity. This fully pre-assembled tailgate bicycle carrier can hold up to four bicycles and coordinates perfectly with the T6's design. The frame holders are adjustable to make loading the carrier even easier. The frame holder for the fourth bicycle can also be locked. The intelligent design of the carrier means that you can still open the electric tailgate easily, even when the carrier is attached (without bicycles). Adjustable tensioning straps ensure that the wheels stay fixed securely in place. Maximum load capacity: 60 kg. Only for the T6.

03 Volkswagen Genuine "Compact II" bicycle carrier: Once mounted onto the tow hitch with its innovative quick-release mechanism, this lightweight, compact folding bicycle carrier can transport two bicycles or electric bikes weighing up to 60 kg. The bicycles are fixed in place with lockable sliding spacers and a convenient ratchet system for the tyres. The carrier comes complete with tail lights, bicycle rails and straps, and can be folded down to stow away in the luggage compartment. The "Compact III" bicycle carrier for up to three bicycles is also available. The tailgates of the Caddy and Transporter cannot be opened with the bicycle carrier attached. A practical storage bag is included.

04

04 Volkswagen Genuine "Basic Flex" bicycle carrier: The flexible, expandable Volkswagen Genuine "Basic Flex" bicycle carrier has a large folding angle to maintain access to the luggage compartment, particularly on vehicles with large tailgates. Operating the foot level, activates the folding mechanism, which in turn allows you to open the luggage compartment, even when the bicycles are already fixed to the carrier. The preconfigured quick-action clamps make it easy to lock the supporting bar securely in place. The innovative, removable spacers with anti-theft locking mechanisms and quick-release fasteners make the carrier even easier to use. The supporting bar folds down flat so you can easily stow the carrier away. An expansion set to increase the carrier's capacity to three bicycles is available separately (see image 05).

05 Expansion kit for the "Basic Flex" bicycle carrier: This expansion kit for the Volkswagen Genuine "Basic Flex" bicycle carrier enables you to add an additional bicycle rail if you need to transport another bike.

06 The transport bag included in the scope of delivery enables safe transportation and clean storage for the Volkswagen Genuine "Compact II" and "Compact III" bicycle carriers. Not available for the "Basic Flex" bicycle carrier.

05

06

05

Volkswagen Genuine "Basic" bicycle carrier (not illustrated): The "Basic" bicycle carrier for two bicycles or electric bikes boasts both an incredibly lightweight design and an innovative attachment mechanism. The carrier fits onto the ball head automatically; all you have to do is slide it on vertically and fold it down into place. The patented lever-free locking mechanism ensures easy, effortless assembly. And the removable spacers with anti-theft protection make the carrier very simple to use. The carrier can be folded down completely to a very small size and stowed away to save space. The Genuine number plate carrier with Volkswagen lettering adds the perfect finishing touch to the "Basic" carrier. An optional transportation bag is also available.

! NOTE

Volkswagen Genuine loading ramp for the Volkswagen Genuine "Premium", "Compact II", "Compact III", "Basic Flex" and "Basic" bicycle carriers (see also page 41, figure 04)

! NOTE

The technical information for all bicycle carriers is provided on page 46. Tow hitch and electrical installation kits can be found on page 47.

01

02

03

01/02/03 Volkswagen Genuine tow hitch: Whether you want to tow a boat, caravan or additional cargo holders, you need a practical fixed or removable tow hitch. The electrical installation kit must be ordered separately. Usage information can be found in the price list.

01 Removable

02 Fixed

03 Fixed, can be unscrewed (only for the Crafter)

Volkswagen Genuine Electrical installation kit (not illustrated): The electrical installation kit is designed to work perfectly with the control elements, provide a high level of system reliability and support the trailer stabilisation program. For vehicles without factory-fitted preparations.

03 Volkswagen Genuine step: Make entering and exiting the rear of the vehicle even easier and safer with the rear step. Not suitable for dropside vehicles. Only for the Crafter.

Volkswagen Genuine screw set (not illustrated): The screw set is an essential tool that makes connecting a towing device to the interchange plate system quick and easy. Only for the Crafter.

Volkswagen Genuine luggage rack (not illustrated): The luggage rack provides a wide range of transport options. The tailpipes can be assembled in such a way as to create a flat loading surface, enabling you to transport longer objects. The rack is made from plastic-coated steel and is therefore exceedingly robust and weather-resistant. It mounts quickly and easily onto the roof bars. Only for the T6.

01 Volkswagen Genuine high bracket set/angle brackets: The high bracket set and angle brackets are ideally suited for transporting long objects safely and securely. The brackets can be used to fix items such as wooden planks securely to the roof bars. The shaped steel strip bracket is fully galvanised.

02 Square carrier with high bracket set and ladder holder:

The black powder- and plastic-coated square carrier serves as a base for our commercial accessories. Products such as the ladder holder or the high bracket set can be attached to the durable steel plate, or it can simply be used as a robust transportation system. Only for the Caddy.

03 Volkswagen Genuine ladder holder: Scratchproof and convenient. With the ladder holder, you can carry your ladders on the vehicle roof without damaging the paintwork. Simply mount it onto the roof bars. Consists of four angle brackets (T6 and Caddy) or four high brackets, two tensioning straps and a rung clamp (Crafter only).

04

04

04 Volkswagen Genuine wheel roller: This smooth roller is installed on the rear-most roof bar. It makes loading the roof with bulky cargo child's play. Once placed on the roller, ladders can simply be pushed forward onto the roof without scratching the paintwork or leaving unsightly marks behind. Can only be used in conjunction with the roof bars.

50 Transport

01 Load securing set: Want to make sure your cargo reaches its destination intact? Then you need the load securing set. The box contains two ratchet tensioning lock straps, two clamping lock straps, four edge protectors and four non-slip pads to fix cargo securely in place. Includes a brochure with handy tips on how to secure your loads.

02 Universal hook: Keeping everything in its place. The versatile universal hook attaches to the vehicle's airline profile. Not just limited to holding jackets, vests and helmets, it can also be used for items such as extension cables or dollies.

03 Wall holder: This practical wall holder ensures the load securing set is always in easy reach. The holder attaches to the vehicle's partition wall and enables you to remove and replace the load securing set quickly and easily. Only for the Crafter.

04 Interior roof rack: Transport long and/or bulky items inside the vehicle without blocking the loading surface. The interior roof rack makes it easy. The two roof rack rails are mounted onto the vehicle's optional roof rails. The cargo can then be attached to the supports easily and securely with two tie-down straps. The loading surface stays clear. Includes two support rails, two tie-down straps and all installation materials. Only for the Crafter.

02

01

03

05 Head lashing: The head lashing is a logical extension for the interior roof rack that provides additional protection for the cargo by preventing it from slipping and being damaged. The lashing is attached to the interior roof rack with two retaining straps. The cargo can then be fixed in place with the tear-proof and dirt-resistant tarpaulin. Can be used with both the standard and the interior roof rack. Only for the Crafter.

06 Internal roof rack installation kit: This installation kit is designed for use with the interior roof rack (04) in vehicles without roof rails installed ex works. Includes four mounting plates and all installation materials. Also suitable for vehicles with normal roof heights. Only for the Crafter.

01 Volkswagen Genuine floor plate with lashing rails: The durable Soboflex material used for this two-part floor plate reduces both noise and the risk of slipping. The three integrated lashing rails provide a convenient transport option, acting as a base for a variety of accessories. Only for the T6.

02 Volkswagen Genuine tie-down strap with clamping lock: The perfect tool for rapidly and reliably securing your cargo. Simply attach the integrated lashing strap fitting to the lashing rails and secure the cargo in place with the clamping lock on the strap.

03 Volkswagen Genuine lashing strap fitting: The lashing strap fitting ensures that your cargo is always securely fixed in place. It attaches to the lashing rails or an individual lashing point on the tensioning rod on the Crafter and T6, or to the rail system on the loading surface or the side wall on the Amarok. The design may vary depending on the vehicle. Only for the Amarok, T6 and Crafter.

04 Tie-down strap with ratchet tensioning lock: The lashing straps can be used to secure even large, heavy loads to the lashing rails in the cargo area. Simply attach the lashing strap fitting and secure the cargo in place with the tie-down strap with ratchet tensioning lock.

05 Tensioning rod: Mounted either horizontally or vertically, the tensioning rod makes a perfect partner for the load securing nets and tensioning straps. Simply fit it into the load compartment and start fixing your cargo reliably in place. The length is adjustable from 1250 to 2100 mm, so it can adapt to your individual width and height restrictions. The rubberised coating protects cargo from damage. Only for the Crafter.

06 Load securing net: Versatile and easy to use. The load securing net with four eyelets and ratchet tensioning locks can be attached to both the standard lashing points or the lashing strap fittings for the rail system. The load is kept securely in place by the surrounding belt strap and clamping lock. Various size options are available for maximum flexibility. See the price list for an overview of all available versions. Only for the Crafter.

Transport

This overview shows the options available for the individual products in our transport range for our current commercial vehicle models. Please contact your Volkswagen dealership for more information as to whether the options can be used in your particular vehicle. Many of the products are available in different variants. See the price list for an overview of all available versions.

² Only in conjunction with C-rails, pack of 3

³ Not in conjunction with an electric tailgate. Not in conjunction with tailgate/roof spoilers.

⁴ The tailgate cannot be opened when a tow hitch carrier is attached.

⁵ For the rail system

Illustration shows: **Load compartment linings**, pages 64 and 65.

1 benchmark: My own.

Everyone has their own standards of comfort. We recommend defining your own. From extras for added personal comfort through to protective measures for your vehicle, you have a range of options to choose from. Enjoy Volkswagen individuality.

01 Volkswagen Genuine reversible floor covering: Soft and gentle velour on the one side or sturdy, anti-slip plastic nubs on the other. These made-to-measure, reversible floor coverings for the luggage compartment have the perfect surface for all delicate, dirty or damp goods. Some models include a robust protective cloth for the loading sill. This can be folded out from the reversible covering as needed to help prevent scratches during loading and unloading. Only for the T6 and Caddy.

02 Volkswagen Genuine luggage compartment tray: A perfect fit. The robust, durable and made-to-measure Volkswagen Genuine luggage compartment tray with vehicle model lettering is the easy way to keep your luggage compartment clean and tidy. The surrounding rim helps minimise the risk of liquids in the luggage compartment leaking out. Only for the T6 and Caddy.

03 Volkswagen Genuine boot liner (similar to the illustration): The wide-ribbed Volkswagen Genuine boot liner with vehicle model lettering is extremely hardwearing and suitable for anything that tends to make a mess during transport, such as dirty shoes or plants. The boot liner protects the luggage compartment from dirt and features a smooth plastic surface to make it easy to clean. Depending on the vehicle model, the boot liner can be fitted with additional lids, partitioning elements, stretch bands and fastening hooks. Only for the T6.

04 Volkswagen Genuine luggage compartment lining: Light, flexible, custom-made protection. The non-slip Volkswagen Genuine luggage compartment lining is designed to fit the contours of the luggage compartment perfectly and protect it from dirt and moisture. When not in use it can be rolled up and easily stowed away to save space. Only for the T6 and Caddy.

05 Volkswagen Genuine luggage net: So that everything stays where it belongs. The tear-resistant Volkswagen Genuine luggage net is ideal for all of those small and medium-sized items you prefer to keep stored safely away. The luggage net is attached to the standard lashing eyes in the luggage space. Only for the T6 and Caddy.

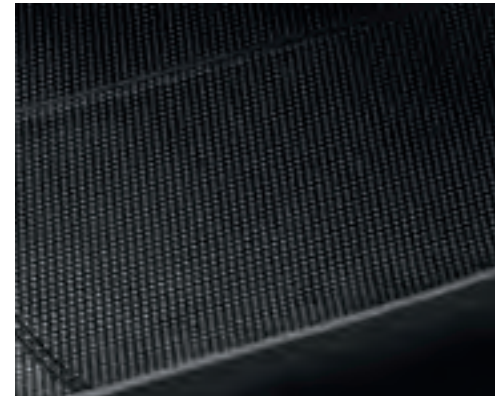

! NOTE

Before starting off, ensure any load is properly secured in the luggage compartment.

01

→ Detail

Once turned into place, the sturdy plastic nubs on the rear side of the reversible floor covering ensure a perfect hold, so it can protect your vehicle from even heavy dirt and loads.

02

03

04

05

01/02/03 Load compartment cover, rolling: Available in black or silver, the load compartment cover provides reliable protection for the loading surface and cargo, and rolls away when not in use. The black cover is made from a durable, weather-resistant, vinyl-coated aluminium, whilst the silver version is made from painted aluminium. Both are lockable. The cover can be gradually opened for transporting larger objects. Depending on the design, it can be combined with the styling bar ex works or installed with the Genuine Accessories styling bar (page 6) thanks to an additional assembly kit.

01 Load compartment cover, rolling, aluminium silver, for vehicles with a factory-fitted sports bar

Not ill. **Load compartment cover, rolling, aluminium black for vehicles with a factory-fitted sports bar**

Not ill. **Load compartment cover, rolling, aluminium black**

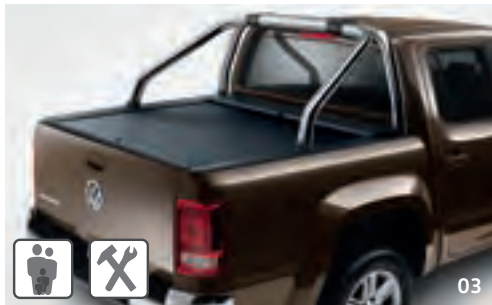

Not ill. **Load compartment cover, rolling, aluminium silver**

02 Load compartment cover, rolling, silver aluminium, for Cargo Manager

03 Load compartment cover, rolling, aluminium, vinyl coated, black

04 Load compartment cover, folding, 3-part: This 3-part, foldable cover is made from robust plastic and reliably protects the load compartment from dirt and grime. It can only be installed with the styling bar. The cover opens and closes easily with pneumatic springs and can be locked with an additional key. Available in white (suitable for painting), Candy White, Reflex Silver Metallic and Deep Black Pearl Effect. See the price list for an overview of all available versions. Only for the Amarok.

05 Cargo Manager: Keep your cargo in check. The sliding Cargo Manager attaches to the side rails of the rolling load compartment cover and can be used to both partition the luggage compartment and stop the goods inside from moving around. Simply press the lever on the side to slide the Cargo Manager into position. The two tensioning straps secure loads in place. Can be assembled and disassembled in a few quick steps. Only in conjunction with the rolling load compartment cover. Only for the Amarok.

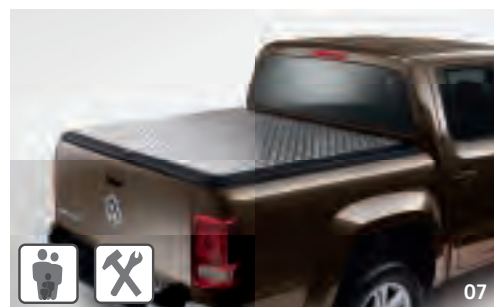

06 Volkswagen Genuine load compartment cover, folding, plastic: The lockable load compartment cover provides optimum protection for the load surface and your cargo. With just a few steps, the cover – supported by two pneumatic struts – can be folded up and held in place, ensuring immediate access to the cargo area. The robust, weather-resistant plastic can be painted in the same colour as the vehicle, integrating harmoniously with the Amarok's overall appearance. The load compartment cover can be used both with and without the styling bar. Only for the Amarok.

07 Volkswagen Genuine load compartment cover, folding, aluminium: It's got everything covered. This lockable cargo area cover made from sturdy aluminium reliably protects the cargo area and the cargo itself against the weather. Easy to fold away, supported by pneumatic springs, the cover does not affect the loading or unloading process. Cannot be used in conjunction with the styling bar. Only for the Amarok. See the price list for an overview of all available versions.

08 Tarpaulins and attachment: Quickly and easily protect your cargo and the loading surface from the weather. The tear-proof tarpaulin can be mounted on the quick-release brackets in a matter of moments. So your cargo is protected from UV rays and rain. The tarpaulin can only be mounted without the styling bar. Only for the Amarok.

05

01 Load compartment cover, hardtop: The Amarok Lifestyle hardtop features the classic Amarok design and is an easy way to expand your transportation capabilities. It protects your goods from theft and – thanks to the optional tailgate seal – the weather, too. The innovative, crack-proof tailgate with heated glass window and two large side windows enables you to reach the load compartment easily from all sides. The tailgate of the hardtop can be unlocked using the vehicle's remote control, and there is an additional remote control to unlock the two large side flaps. This means that you can easily open the hardtop with just one hand. You do not need to drill any holes into the cargo box to attach the hardtop as it comes with specially designed brackets. The mounting system is distinguished by its especially space-saving design. A stylish spoiler, which holds the 3rd brake light, is integrated into the tailgate. The interior includes LED lighting, so you can still see your goods after dark. The wiring harness for the electrical connection must be ordered separately for your specific vehicle. See the price list for an overview of all available colours.

02 Volkswagen Genuine load compartment lining, aluminium: Tailored protection against scratches and cargo damage. Made-to-measure corrugated aluminium sheets protect the front wall, loading surface and tailgate, while the side walls are protected with a custom-fit plastic tray. Only for the Amarok.

03 Load compartment lining, modular, 5-part: The 5-piece modular load compartment lining offers a high level of flexibility. The individual elements enable you to protect the drop side, load surface, tailgate and two drop side walls against scratches and other transport or loading damage. Only for the Amarok.

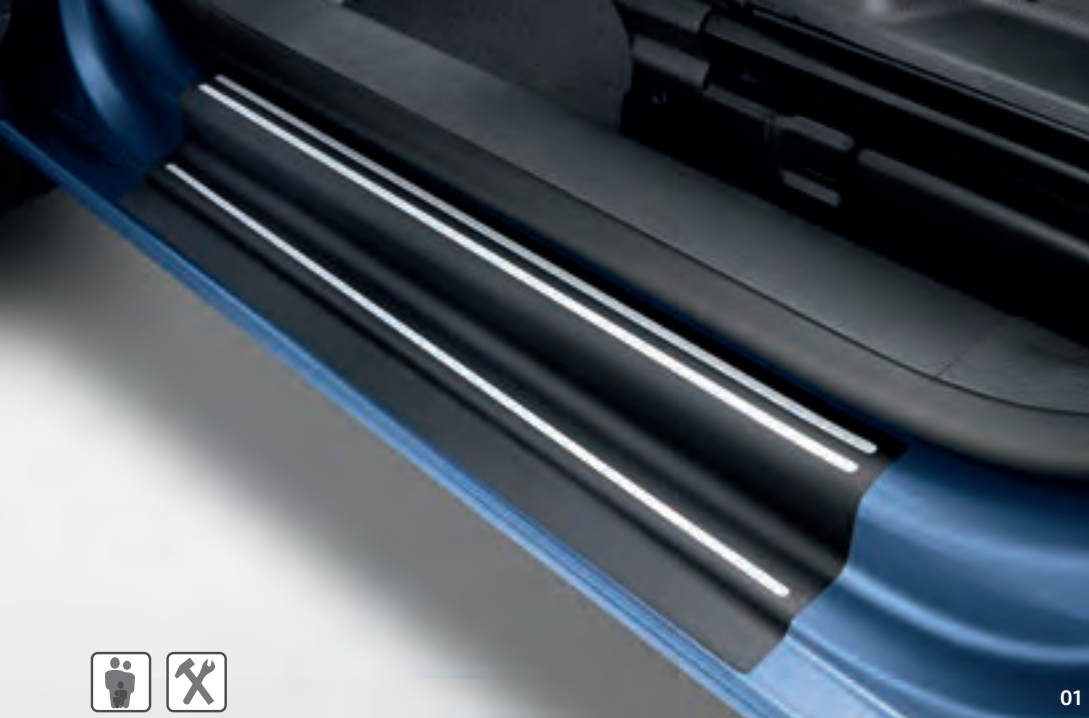

04 Load compartment liner: Effective protection for the loading surface. This custom-fit plastic tray protects the front wall, loading surface, tailgate and side walls from scratches and cargo damage, but still fits in with the classic, robust Amarok look. Only for the Amarok.

05 Toolbox for the loading surface: This toolbox offers a generous amount of space for your tools and other important pieces of equipment you need when on the road. The lockable toolbox provides optimum protection against the weather and spans the entire width of the loading surface between the wheel arches. Two gas struts make the toolbox easy to open, load and unload. Only for the Amarok.

06 Volkswagen Genuine rear window grille: The rear window grille is made from black powder-coated steel and is ideal for transporting extremely long objects as they can be laid from the loading surface up to the top of the grille without scratching the roof. In addition, a ladder can also be securely attached to an integrated retainer. Only for the Amarok.

07 Volkswagen Genuine underride guard: Ensure optimum protection in any terrain. The underride guard is made from incredibly impact-resistant, durable material and provides effective protection for the fuel tank. Make the Amarok's underbody just as strong and durable as the Amarok itself. Only for the Amarok.

01

01 Volkswagen Genuine sill panel trim film, black/silver: A detail that both looks good and does good – this film protects the paintwork on the heavily used door sills in the front and rear entrance areas from scratches and damage.

02 Volkswagen Genuine loading sill protection film, transparent: This practical, made-to-measure loading sill protection is made from transparent film and prevents damage during loading and unloading. Sticks onto the loading sill on the rear bumper.

03 Volkswagen Genuine mudflaps: Protect your own vehicle and those behind from flying dirt, dangerous stone impacts and spray with these extremely durable Volkswagen Genuine mudflaps. Available for both front and rear.

04 Volkswagen Genuine parking distance control, rear: The Volkswagen Genuine Park Distance Control is automatically activated when the vehicle is put into reverse. Four sensors and an acoustic warning signal help the driver reverse into parking spaces. On the Caddy, information is displayed via the Infotainment system.

05 Volkswagen Genuine all-weather floor mats/rubber floor mats: Keeping the footwell clean all year round. This made-to-measure, durable floor mat set not only keeps dirt and dampness away from the floor of your vehicle, but also reduces odours and is 100% recyclable. The front mats are attached to the vehicle floor using the integrated fastening system to prevent slipping. Colour: Black. See the price list for an overview of all available versions.

Not ill. 2-piece mat set

05 3-piece mat set (only for the T6)

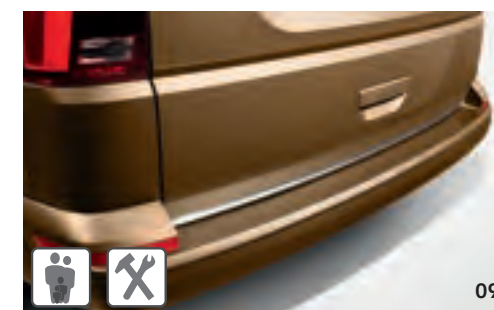

02

03

04

06 Volkswagen Genuine "Premium" textile floor mats: Perfectly tailored to the floor dimensions, the Volkswagen Genuine textile floor mats are made from hard-wearing, thick woven velour. The front mats are fixed in place using the attachment points in the floor area. The rear mats feature a wear-proof coating on the back to prevent them from slipping. Design may vary depending on the vehicle model.

07 "Plus" textile floor mats: The "Plus" textile floor mats are made from velour and fit perfectly into your vehicle's footwells with the Volkswagen attachment system. They feature a non-slip coating on the back, as well as robust impact protection in the heel area and a textile border.

08 Volkswagen Genuine loading sill protection in stainless steel look: The Volkswagen Genuine stainless steel effect loading sill protection not only protects the paintwork during loading and unloading, but also gives your vehicle a distinctive look. It is quick and easy to attach – simply stick it onto the loading sill on the rear bumper.

09 Volkswagen Genuine tailgate protective strip: The attractive Volkswagen Genuine tailgate protection in a high-gloss chrome look is not only an attractive eye-catcher, it also effectively protects the edge of the rear lid at the same time. It is very easy to attach as it simply sticks onto the lower edge of the tailgate.

01

02

03

01 Volkswagen Genuine mesh partition: The Volkswagen Genuine mesh partition is fitted between the rear seat backrests and the headliner to separate the passenger compartment from the luggage compartment. The sturdy, black powder-coated steel grille can be easily and comfortably attached behind the rear bench seat. Assembly is simple and no holes have to be drilled. The luggage compartment cover can also be used with the mesh partition. Only for the T6 and Caddy.

01 Volkswagen Genuine partition: This lets you keep the luggage area tidier. This practical Volkswagen Genuine partition can be fixed to the existing attachment points in just a few quick steps. Can only be used in conjunction with the partition grille. Only for the Caddy.

02 Volkswagen Genuine door wind deflector: The optimum form of ventilation of the vehicle interior contributes to your driving comfort by improving the atmosphere inside the vehicle. enjoy the circulating fresh air, even when it is raining or snowing, or avoid the unpleasant build-up of heat on hot days by opening the windows slightly. These low-maintenance, car wash-resistant wind deflectors are made from high quality, recyclable acrylic glass. Colour: Smoke Grey. Only for the T6, Caddy and Crafter.

03 Volkswagen Genuine protective rear window grille: This robust metal grille offers dual protection. It not only prevents damage to the rear windows during transport, loading and unloading, but also protects the luggage compartment and cargo from curious eyes. Only for the Caddy and Caddy Maxi with rear wing doors.

04 Volkswagen Genuine cool and thermos box: Snacks for any occasion, always at the ideal temperature. This energy efficiency class A++ box connects to a 12V/230V socket, either in the vehicle or at home. Two-litre bottles can be transported upright in the box, which has a capacity of approx. 25 litres. Includes battery discharge protection and a replaceable insulating lid.

! NOTE

The robust protective rear window grille provides valuable protection when transporting long or sharp objects and ladders inside the vehicle.

05 Volkswagen Genuine refrigeration and insulation box: Picnic, lunch or dinner?

The Volkswagen Genuine refrigeration and insulation box for the Multivan or California Beach has a capacity of approx. 32 litres and can be securely connected to the existing rail system in your vehicle with its special attachment system. It boasts a 48 W power supply to ensure that your snacks are always at the correct temperature, whether you want them hot or cold. The box has a removable lid and an integral mesh partition, and can carry one-litre bottles in an upright position.

06 Volkswagen Genuine "Snakey" headrest hook: Twin pack of practical organisers for mounting on the front seat headrest struts. Simply hook your items on and off you go. Colour: Black.

07 Volkswagen Genuine clothes hanger¹: Sometimes things just have to be crease-free. The stylish Volkswagen Genuine clothes hanger can be quickly and easily attached to the headrest struts on the front seats. Keeps your shirts, jackets and other similar items of clothing beautifully smooth.

08 Volkswagen Genuine "Clean Solution" waste bag²: No waste, no worries: the waste bag attaches to the headrest struts on the front seats. When a bag is taken out, a new one is automatically pulled into place. Includes two rolls, each with 50 bags.

¹ Only usable if a passenger is not seated in the rear seat behind it.

² Not for vehicles with electric headrests.

! NOTE

The set can be easily and safely stored away using the storage case included in the scope of delivery.

02

03

04

01 "Volkswagen Edition" espresso machine and espresso pods: Ideal for espresso fans. You no longer have to find a service area to enjoy your coffee break. With this mobile in-car espresso set, you'll always have your own little coffee bar on board. Simply stop for a break, connect the machine to the 12 V socket inside your vehicle and get ready to enjoy a freshly brewed espresso. The set includes two break-proof espresso cups, a serviette and 25 espresso pods along with an elegant and practical storage case.

02 Volkswagen Genuine waste container: Get rid of sweet wrappers and chewing gum quickly and easily with the Volkswagen Genuine waste container. Simply place it in the drink holder, and remove it again when not required. The convenient way to keep the vehicle clean on long journeys.

03 Volkswagen Genuine LED reading light: The Volkswagen Genuine LED reading light enables your passengers to enjoy a comfortable level of light when travelling in the dark. The universal LED reading light is powered via the cigarette lighter and delivers a bright light with very low energy consumption. The on/off-switch, which bears the Volkswagen logo, is located on the rotating lamp head. The adjustable swan neck enables exact positioning of the light. Requires a 12V power socket.

04 Marten deterrent: Small animals with a big impact. If martens chew on a vehicle's ignition cables or electric systems, they can leave it at risk of breaking down, leading to expensive repairs. With an effective marten deterrent, you can avoid all this in advance. Volkswagen Accessories offers a variety of effective solutions – from a preventive deterrent spray¹ to electrical products. See the price list for an overview.

05 Volkswagen Genuine tailgate tent: The tailgate tent attaches quickly to the open tailgate of your T6, giving you a practical extension to your living space on camping trips. It can be used in many different ways – as a shower cabin, toilet cabin, for protection from the weather or for improving ventilation in the sleeping area during the summer months. The tailgate tent features a closable mosquito window and an additional removable tunnel entrance. It is made from mould-resistant and flame-retardant material. Only for the T6 with a tailgate.

06 Shower set with shower head: Take a personal water supply with you wherever you go with this practical shower set. Whether you make use of the tailgate tent and use the shower set for showering, or just use it to rinse your dishes, spray down your dogs after a walk or clean your vehicle – with the mobile shower set, you're ready for anything. The set includes: immersion pump – 12 l/min, 0.6 bar, adjustable shower head with 2 m shower hose, 4m power supply cable and 12 V plug, 20 l folding canister, floor mat, shower gel, suction hooks and transport box.

05

06

¹ Use marten repellent spray safely. Always read the label and product information before use.

Your children are always well protected when travelling.

Children need two things above all else: love and protection. We cater to both with our child seats. Volkswagen Genuine child seats have been specifically designed in loving detail to meet the challenges of the respective age group. As a result, your child benefits from tailored protection that exceeds the requirements of the ECE-R44/04 standard. What's more, the child seats offer a high level of comfort and simple handling, and come with easy-to-remove covers that can be washed at 30°C.

01 Volkswagen Genuine seat cover: Optimum protection for sensitive seats. The easy-to-clean, non-slip Volkswagen Genuine seat cover prevents dirt and wear, for example from child seats. Practical mesh pockets offer additional storage space. Can also be used with ISOFIX seats. Available in versions with short and long back sections.

02

03

04

02 Volkswagen Genuine G0 plus ISOFIX: High levels of protection and comfort for newborns and babies up to 13 kg or 15 months old. The ISOFIX fastening system ensures that the child seat and its base frame are securely fastened to the vehicle body. In vehicles without an ISOFIX system, the seat can be attached with any 3-point belt. The child is held securely in the seat with an adjustable 5-point safety harness. Additional features include an adjustable handle, an easily removable, washable fabric cover, an adjustable seat insert and a sun shade.

03 Volkswagen Genuine G1 ISOFIX DUO plus Top Tether: Maximum safety and comfort for children weighing between 9 and 18 kg (eight months to approx. four years old). The height of the belt harness can be adjusted. Furthermore, the sitting position can be adjusted in multiple ways. In addition to the tried-and-trusted locking system of an ISOFIX connection, in certain vehicles the seat can also be secured to special fasteners in the luggage compartment using the "Top Tether" connection – providing additional safety.

04 Volkswagen Genuine G2-3 ISOFIX: Children aged between three and twelve years (15 to 36 kg) can travel with protection and comfort with features such as height-adjustable sleep supports and options to adjust the height and inclination of the seat to suit the individual child. And with the removable back rest, the seat "grows" with them. The seat is attached using the vehicle's ISOFIX anchorage points. The child itself is buckled in using the 3-point seatbelt in the child seat.

05 Volkswagen Genuine additional interior mirror: Offers a better view and a careful eye on children travelling in the rear. The Volkswagen Genuine additional interior mirror is fixed to the windscreen or dash panel using a suction cup mount and can be adjusted to take in the interior, the traffic or the area around the car for parking with its flexible joint.

05

01 Volkswagen Genuine care and cleaning products: Our Volkswagen Genuine care and cleaning products have been developed to work ideally together both in and on the vehicle. Every product is ISO-certified and has also been tested and approved by Volkswagen's central laboratory. For long-term, effective vehicle care which protects both the material and the environment. Please see the price list for more detailed information about the individual products, as well as our seasonal care and cleaning sets.

02 Volkswagen Genuine first aid kit: This DIN standard first aid kit is an essential tool in the event of an accident. Meets the legal requirements of section 35h of the German Road Traffic Licensing Regulations and DIN 13 164.

03 Volkswagen Genuine warning triangle: The intelligently designed warning triangle has ECE test certification; it is stored in a space-saving manner and can be put to use easily and safely thanks to its swivelling metal foot.

04 Volkswagen Genuine safety vest: This fluorescent Volkswagen Genuine safety vest with Volkswagen lettering and reflective strips conforms with DIN EN 471. As of 1 July 2014, all drivers in Germany are required by law to carry a safety vest in their vehicle (with the exception of motorbikes and mobile homes); in other European countries, a safety vest must be carried for all vehicle occupants. A storage pouch is included. Colour: Orange.

05 Fuel canister: Long journey ahead and nowhere to refuel along the way? This 5-litre fuel canister helps you bridge the distance to the next service station. The canister comes with two filling tubes, one for diesel and one for petrol.

06 Volkswagen Genuine breakdown assistance safety package: The safety package contains a selection of products that may come in useful in the event of an emergency. All of the products in the set are supplied in a durable bag with two non-slip Velcro strips on the underside.

07

08

09

07 Volkswagen Genuine tyre bag set: Protect your wheels with these four robust Volkswagen Genuine tyre bags and wheel bolt bag. The bag is suitable for tyres and complete wheels up to 18 inches with a 245 mm tyre width and a 2100 mm tyre circumference. A larger bag for wheels up to 21 inches is also available.

08 Volkswagen Genuine valve caps: Customisation down to the smallest detail. These four Volkswagen Genuine valve caps are embossed with the Volkswagen logo and protect the valves from dust, dirt and moisture. Suitable for aluminium valves and rubber/metal valves. 1 set = 4 pieces.

09 Volkswagen Genuine wheel bolt locking set: Secure your alloy wheels effectively against theft with the Volkswagen Genuine wheel bolt locking set. Colour: Black. 1 set = 4 pieces.

10

11

10 Volkswagen Genuine Snox snow chain (powered by pewag): The Volkswagen Genuine Snox snow chains are easy to fit and designed to provide smooth characteristics. There are no hooks and eyes to connect or thread during installation, and manual re-tensioning, too, is a thing of the past. All external parts that make contact with the wheel are made from plastic to avoid causing scratches. The innovative Snox system controls the snow chain tension completely automatically. When the vehicle stops, the locks release. This means that the snow chain can be removed in any tyre position, a process made even simpler with the "Quick Release" function. A practical carry bag is included.

11 Volkswagen Genuine Servo SUV snow chain (powered by pewag): The Volkswagen Genuine Servo SUV snow chain ensures a secure grip on snowy roads. The high-quality stationary assembly chains can be fitted to and removed from the wheels quickly and easily. Automatic tensioning ratchets guarantee the best possible chain tensioning while driving – so manual re-tensioning is no longer necessary. All external parts that make contact with the wheel are made from plastic to avoid causing scratches. The reversible chains ensure a longer service life. Only for the Amarok.

Comfort and Protection

This overview shows the options available for the individual products in our Comfort and Protection range for our current commercial vehicle models. Please contact your Volkswagen dealership for more information as to whether the options can be used in your particular vehicle. Many of the products are available in different variants. See the price list for an overview of all available versions.
